

CSCI 328 Computer Ethics

Student Presentations.

Each pair of students will lead one class session. You will be expected to meet with me one week ahead of time to discuss your ideas for your presentation and activities. You will then meet with me a day or two before your assigned session to go over your prepared presentation and plans. Your topic may be the one given (which we will be discussing in class) or one of your own choosing (if approved by me).
